# OIL SKIMMERS

**HIGH PERFORMANCE, QUIET RUNNING MOTOR**

**CAN OPERATE UNATTENTED 24 / 7**

**UP TO 30 YEAR OPERATING LIFE**

**UNIQUE ANTI-CLOGGING DESIGN**

Water Tecnik are sole distributors for Oil Skimmers inc. in Ireland. We service industries ranging from food processing to power generation in both Northern Ireland and the republic of Ireland providing oil skimmer sales and service support to our customers.

Oil Skimmers, Inc. has been providing simple, effective and cost-saving solutions to business and industry for over 40 years. Oil Skimmers Inc manufacture highly efficient tube type oil skimmers to remove floating fats, oil and grease from the surface of water.

## Options Available :

### *Model 6V Oil Skimmer*

Model 6V Brill™ oil skimming system is the dependable, cost-effective and uncomplicated solution for removing oily waste from water during the manufacturing and waste treatment process.

The Oil Skimmers Model 6V™ waste oil recovery system removes animal, vegetable and petroleum-based oils, fats, greases, and oily wastes that float on the surface of water or other liquids.

### *Model 5H Oil Skimmer*

Model 5H is a compact oil skimmer specially designed for small or hard-to-get-at places or in congested plant areas where the unit can be located within 3 feet of the water level.

### *Model 1H Oil Skimmer*

Model 1H is the most compact tube-type skimmer which is designed to remove oil from aqueous washing and machining coolant tanks where restricted access or small surface area make skimming a challenge.

## Suitable for the following industries:

**No matter what your application needs, Oil Skimmers Inc. has a system that will manage all your waste oil recovery efforts.**

- Machine / Metalworking
- Heat Treating
- Poultry Processing
- Food Processing
- Power Generation
- Wastewater Treatment
- Steel Producing
- Metal Processing
- Fuel Distribution
- Heavy Equipment Wash Base
- Disposal Sites
- Chemical Processing
- Automotive Parts
- Metal Office Furniture

## Technical Features / Performance - Model 1H Oil Skimmer:

***Model 5H Oil Skimmer***

1/8HP gear motor that can be supplied in varying speeds.

Model 1H provides continuous oil removal anywhere it's needed – from parts washing operations in custom machine shops to start-up oil recovery ventures.

Adjustable motor mount sub-assembly allows the skimmer to skim at varying depths.

***Model 6V Oil Skimmer***

Removes as much as 455 litres of waste oil per hour.

Discharges waste oil into a drum so efficiently that the recovered waste oil is virtually water-free.

Tube easily floats up or down to adjust to changing water level.

Gyrating action of collector tube breaks up oil crusts.

***Model 6V Oil Skimmer***

Model 5H is fully automatic, works 24/7

Can be installed on open or closed tanks.

## Skim Oil Effectively - Cut Costs:

With Model 1H working continuously to remove oils, sludge or grease, the life of coolants and washing tank solutions is extended. That translates into lower expenses. Because you don't need to drain and recharge as often, your detergent or degreasing supplies last longer and your fresh water bills go down.

Wastewater treatment and disposal costs decrease, as well, because the water drained out of the tanks is cleaner, requiring less treatment. Another benefit is that this small, but highly practical skimmer helps you stay compliant with water discharge regulations.

## Our Promise

At Water Tecnik we are dedicated to providing all our customers with the highest service standards possible, and strive to exceed customer expectations with each project delivered.
